

Input is an Ayrshire charity providing preparation for work for people with learning difficulties.

In these difficult times we are using our trainee's skills and our resources to help combat digital isolation in the community.

Our aim is to help people get online.

Input's partners can refer local people to be supplied with refurbished computer equipment and/or internet.

Digital Inclusion

Our trainee prepared and supported refurbished equipment: - Desktop & Laptop Computer, Tablet, Smartphone, Mobile Internet Access for 1 or 2 months.

Equipment can be picked up from the Focus Centre Saltcoats by arrangement or delivery can be arranged.

Support is available 1pm – 3pm Monday to Friday on 01294 441 404 or Text only 07591 530 679 or by email contact@inputcw.com

Please note limited availability (one per household) referrals will be prioritised on a waiting list. We ask that unused equipment be returned to us for wiping and reissue.
